Skills

- **Languages**: C++, JavaScript, C, PHP, Python, Java
- **Frameworks & Libraries**: React.js, Node.js, Express.js, Next.js, Tailwind CSS
- **Databases**: MySQL, MongoDB, PostgreSQL
- **Tools & Platforms:** Git, GitHub, Linux
- **Core Strength :** Problem solving, Data Structures & Algorithms, Leadership, Adaptability

Projects

Helpmefy – Full Stack Emergency Support System | Link Nov' 25 – Dec' 25

- Developed a full-stack emergency assistance application enabling users to send real-time secure emergency help requests.
- Designed and implemented RESTful APIs using Express.js and Node.js.
- Implemented secure authentication and authorization using JWT and middleware.
- Designed MongoDB schemas using Mongoose for efficient data handling.
- Integrated frontend and backend with Axios and tested APIs using Postman.
- Applied proper error handling and route protection to ensure application security.
- **Tech Stack:** React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT

Techie – E-commerce Website for Latest Technologies | Link Jun' 25 – July'25

- Built a responsive e-commerce web application with secure user authentication, shopping cart functionality, and category-based product filtering.
- Developed backend modules for user registration, login, and product management using **PHP** and **MySQL**.
- Designed and optimized the user interface using **Tailwind CSS** for improved responsiveness and accessibility.
- Integrated **Google Maps API** to enable location-based services and enhance customer interaction.
- Implemented dynamic frontend behaviour using **JavaScript** to ensure seamless navigation and improved performance.

Training-Mastering C++

Centre for Professional Enhancement (CPE), LPU June' 25 – July 25

- Built a strong foundation in **C++ programming** with emphasis on **Object-Oriented Programming (OOP)** concepts such as classes, inheritance, polymorphism, and encapsulation.
- Practiced **Dynamic Programming** and **algorithmic problem-solving**, focusing on writing optimized and logically structured solutions.
- Developed multiple **mini-programs** to implement algorithms and OOP concepts, emphasizing **clean code, efficiency, and proper use of control structures**.
- Demonstrated consistent performance and discipline, earning a **Grade A** in the summer training program.

Certificates

- Cloud Computing | NPTEL — Jul '25-Oct' 25
- Mastering C++ (Skill Development Course – LPU, 2025| Certificate — Jun '25-Jul' 25
- Build a Thon Hackathon | Hackathon — Apr'25

Achievements

- Ranked among the top 10 out of 350 students in the university-level hackathon.
- Recognized as a **5-Star Coder**, reflecting strong problem-solving ability and consistency in coding practice.
- Excellent academic performance maintained throughout the university program.

Education

Lovely Professional University Phagwara, Punjab
- Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.66** Aug' 23 – Jun' 27

Kendriya Vidyalaya Hyderabad, Telangana
- Intermediate; **Percentage: 72%** Apr' 22 – Mar'23

Kendriya Vidyalaya Hyderabad, Telangana
- Matriculation; **Percentage: 90%** Apr' 20 – Mar' 21
